In the matter of Application Serial No.: 86/029,402  
By 3A Pathology Limited for the Mark: 3A LABORATORIES  
Filed: August 6, 2013  
Published in the *Official Gazette* on January 7, 2014

3M COMPANY,

Opposer,

v.

3A PATHOLOGY LIMITED,

Applicant.

Opposition No. \_\_\_\_\_

**NOTICE OF OPPOSITION**

3M Company (“3M Company” or “3M”), a Delaware corporation having a principal place of business at 3M Center, 2501 Hudson Road, St. Paul, Minnesota, 55144-1000, believes that it will be damaged by registration of the mark in Application Serial No. 86/029,402, and hereby opposes same under the provisions of 15 U.S.C. § 1063.

As grounds for opposition, 3M Company asserts that:

1. 3M Company is the owner of the mark and trade name 3M (collectively the “3M mark”).
2. 3M Company adopted and began using the 3M mark at least as early as 1906, in connection with abrasives, and has continuously used the 3M mark since that time. Over the past century, 3M Company has expanded its usage of the 3M mark and presently offers over 60,000 different products and services under the 3M mark in a wide range of areas.
3. 3M has had a long and extensive presence in the medical and medical research industries.

4. 3M offers hundreds of products under the 3M mark intended for use in laboratories. These products include, but are not limited to, general laboratory goods (e.g., pipettes and pipette tips; sterile gloves; culture media; plates, plate spreaders, and plate readers; sponges, sponge-sticks, swabs, and transport bags for sample collection and transport; dilution bottles, pouches and vials, and dehydrated media for test preparation; incubators; record log books and cards; indicator strips and tape; and laboratory start-up kits containing these goods) as well as those designed for specific sectors including, but not limited to, food safety testing (e.g., pathogen and toxin tests; protein tests; hygiene monitoring systems; and microbial luminescence systems for dairy end products) and dentistry (e.g., dental restorations and indications; digital oral scanners; and laboratory dental composite kits).

5. Since at least as early as 1970, moreover, 3M has offered custom manufacturing services to the pharmaceutical industry.

6. Over the years, 3M has used variations of the 3M mark, such as 3M-MATIC and THREE-M-ITE.

7. Over the years, 3M has presented its 3M mark in a number of different formats, as depicted in Exhibit A, attached hereto.

8. The 3M mark is inherently distinctive and serves to identify and indicate the source of 3M's products and services to the consuming public.

9. 3M has developed an enormous amount of goodwill in its 3M mark. This mark is extremely well-known and respected by consumers. The 3M mark represents 3M's commitment to providing high quality products and services to consumers.

10. As a result of the long use and promotion of the 3M mark by 3M, the 3M mark has become distinctive to designate 3M, to distinguish 3M and its products and services from the products and services of other businesses, and to distinguish the source or origin of 3M's products

and services. As a result of these efforts by 3M, the consuming public throughout the United States widely recognizes and associates the 3M mark with 3M and its products and services.

11. As a result of 3M's long use and promotion of the 3M mark, 3M has acquired valuable common law rights in the 3M mark throughout the United States.

12. As a result of 3M's long use and promotion of the 3M mark, the 3M mark has become famous.

13. 3M owns over 200 trademark registrations for its 3M mark, covering a wide variety of goods and services, issued by the United States Patent and Trademark Office. 3M's registrations for the 3M mark include the following registrations:

<b>REG. NO.</b>	<b>MARK</b>	<b>FIRST USE</b> (at least as early as)	<b>GOODS</b>
3,208,474	3M	May 1996	<u>Int'l Class 40</u> : Manufacturer of transdermal patches containing pharmaceutical preparations to the order and specification of others.

True and correct printouts from the TSDR database for each of these registrations are attached as Exhibit B. These registrations are valid, subsisting, enforceable, and incontestable pursuant to 15 U.S.C. § 1065.

14. 3A Pathology Limited (“Applicant”) seeks to register the mark 3A LABORATORIES for “Medical laboratory services; Research and development in the field of medical diagnostic test and drug development; Providing medical and scientific research information in the field of pharmaceuticals and clinical trials; Medical and scientific research, namely, conducting clinical trials for others; Scientific laboratory services Material testing” in International Class 42 (“Applicant’s services”).

15. 3M Company’s 3M mark became famous prior to Applicant’s application to register Applicant’s mark and Applicant’s use of Applicant’s mark.

16. The mark that Applicant seeks to register so resembles 3M Company’s 3M mark and name as to be likely, when used on or in connection with Applicant’s services, to cause confusion, or to cause mistake. Purchasers and prospective purchasers are likely to mistakenly believe that Applicant’s services offered under the mark 3A LABORATORIES are sponsored, endorsed, or approved by 3M Company, or are in some way affiliated, connected, or associated with 3M Company.

17. The mark that Applicant seeks to register so resembles 3M Company’s mark and name as to be likely, when used on or in connection with Applicant’s services, to dilute the distinctive quality of the 3M mark, in violation of 15 U.S.C. § 1125(c).

18. Registration of Applicant's 3A LABORATORIES mark would be a source of damage to 3M Company because purchasers are likely to attribute the source or sponsorship of Applicant's services to 3M Company.

19. Registration of Applicant's mark would be a source of damage to 3M Company because it is likely to dilute the distinctive quality of the 3M mark.

20. Registration of Applicant's mark would be a source of damage to 3M Company, as it would confer upon Applicant various statutory presumptions to which it is not entitled in view of 3M Company's long prior use of its 3M mark.

WHEREFORE, 3M Company prays that Application Serial No. 86/029,402 be rejected, and that registration of the mark and name therein be refused under 15 U.S.C. §§ 1052(d), 1063 and 1125(c).

The filing fee in the amount of \$300 as required by 37 C.F.R. § 2.6(a)(17) is being paid electronically via credit card with this Notice of Opposition. The Commissioner of Trademarks is authorized to draw on the deposit account of Fulbright & Jaworski, L.L.P., Account No. 50-1212/11401709/THRT.T2201US.DS/MSM, in the event that anything prevents the successful completion of electronic payment of the filing fee.
